WEB PHISHING DETECTION

What do they THINK AND FEEL?

what really counts
major preoccupations
worries & aspirations

My colleague say it will develop in user friendly

More Intrest in the Project

I want to make app for Security Purpose

Our Faculty said add new type of technology for secure data

It should be access any type of os

How to reduce the pros in the app

It should be used to Secure the data from hackers

It will be an easy task

Many organization can use this application

It will new to the Society

It willl morte secure the data

Securing the data is difficult

What do they HEAR?

what friends say
what boss say
what influencers say

Many members will say there will show many ads will display

It is more difficult to create a project

You want to know the each process of the program

Data Science and database is needed

What do they SEE?

environment
friends
what the market offers

This application will helpful for sharing the secret information

It will use the Cryptography and advanced data science concept

Learning About the new Technology

This website will used to save the data

control features will access

Need this type of Software

Make The Product Effective

I want to earn income from this website

What do they SAY AND DO?

attitude in public
appearance
behavior towards others

PAIN

fears
frustrations
obstacles

Create an error free application

How the code will fulfill my exceptation

How the data will be stored

Securing the data

GAIN

"wants" / needs
measures of success
obstacles

Leadership

Gain Knowledge

Know the Development of Software

Give an New project for unknown people
